December 17th Cryptogram

This cryptogram is a message in substitution code. Some ways to break the code are: to look for repeated letters in a word or to try to guess 1, 2, or 3 letter words. Hint: One-letter words are usually I or A but our one-letter word is not either of those.

Answers to previously posted puzzles can be found at 5sparrows.com/puzzle-answers. Answers to this puzzle will be added when a new puzzle is posted.
