

# Jesuit Missionaries Logic Puzzle

The four men listed in this puzzle were all Jesuit missionaries. Your job is to match each of them to his month of birth and his mother's name. Read the following clues carefully. Put an "x" in a box to represent no; a "." to represent yes. If you don't know how to solve logic table puzzles, [see our guide](#). Since these are all real-life facts, you could look them up if you get stumped and need more hints. But the puzzle is able to be solved without looking up any more information.

- John de Britto was born earlier in the year than at least two of the others.
- Francis Xavier was not born in October or June.
- Anna's son was either named Peter or was born in October.
- Matteo Ricci's mother was not named Beatrix.
- Peter Claver's birthday was later in the year than Francis Xavier's birthday.
- Beatrix was not the mother of Francis Xavier.

- Maria's son was born in April.
- Anna's son was born in June.

		MONTHS				MOTHERS			
		March	October	June	April	María	Anna	Beatrix	Giovanna
SAINTS	Francis Xavier
